Target audience: OB Clinical Staff Members and Providers

- **PI contacts clinic via video, phone, or mouth**
  - Is this a life-threatening emergency? (cannot breathe, chest pain, dizzy, confused)
    - NO: Standard triage evaluation
    - YES: 911 for EMS
      - Instruct patient to wear mask after EMS arrives
  - Has any of the following new/worsening symptoms:
    1. Fever (objective or subjective)
    2. Unexplained muscle aches
    3. Respiratory symptoms (shortness of breath, cough)
    4. URTI symptoms (headache, runny nose, sore throat)
    5. GI symptoms (diarrhea, nausea, vomiting)
    6. ENT symptoms (loss of taste or smell)
    7. Eye symptoms (conjunctivitis)

- **Patient with risk factors (yellow box)**
  - Provider able to perform same day video triage?
    - YES: **Clinic staff schedules pt for video visit with clinic provider for further evaluation**
    - NO: Direct to nearest ED (MB or PM) or local ED

**Environmental risks**
- High-risk travel or known COVID exposure
- Health care workers
- Institutional exposure (nursing home, dormitory, shelter, prison, etc.)
- Outpatient dialysis center patient
- Living with immunocompromised person(s)

**Patient-related risks**
- Cardiovascular disease (e.g., PACT)
- Immunocompromised (oncology, rheumatologic disease, transplant, immune suppressive meds, including steroids, HIV, other known immunodeficiency)
- Chronic lung disease, including moderate/severe asthma
- Congestive heart failure
- End stage renal disease
- Pre-gestational Diabetes
- Hypertension
- Smoking/vaping

**Needs testing/ADN <2h wks**
1. Order COVID RNA, select "Symptomatic" & relevant indication. Can also order other testing (CCR, labs) if desired.
2. Place referral order "Ambulatory Referral to Respiratory Screening Clinic or Testing Only Appointment (UCSF ONLY)." Select "Other COVID Testing only appointment." and indicate tests that have been ordered.
3. Ask patient to mask if able. Dir instruction via smartphrse coviddischargeadul or advise pt to go to local testing facility

**Needs in-person evaluation**
1. If <20 weeks GA, place referral order "Ambulatory Referral to Respiratory Screening Clinic or Testing Only Appointment (UCSF ONLY)." Select "In-person provider appointment."
2. If 20+ weeks direct to OB triage. Ask patient to mask if able. Dir instruction via smartphrse coviddischargeadul or advise pt to contact their local OB or PCP if too far from UCSF.

**High acuity life threatening**
Direct to nearest ED (MB or PM) or local ED
